I have a severe sore throat, what's a good medicine to take to treat this and provide relief? Sore throats are common. Most are [does tramadol help with a sore throat](#) by viruses, but throats can also become sore as a result of smoking, allergies, [tramadol for neck and shoulder pain](#) irritants such as pollution, air conditioning or yelling too much. Sometimes sore throats are caused by bacteria, or bacteria take advantage of the fact that your immune system is already under pressure, and colonize an already existing viral sore throat. Sore throats with bacterial involvement are more serious than sore throats due to most other causes. Bacterial sore throats need a doctor's involvement, whereas the majority of sore throats caused by other conditions get better by themselves.
